STUDENTS HAVE
COMPLETED THE
SUMMER PROGRAM

MGIMO HAS RECENTLY CELEBRATED ITS 75TH
ANNIVERSARY AS THE PREMIERE DIPLOMATIC AND
HUMANITARIAN UNIVERSITY IN THE CIS

International Summer Program 2020

This year will mark the **fifth installment** of MGIMO University's highly successful Summer Program. Building upon feedback gained from previous years, several changes have been made to the Program to ensure that incoming participants will be able to partake in the most engaging Academic course possible, in combination with an unforgettable cultural experience.

From **July 5th - July 28th 2020**, students will attend a completely revamped course at the modern **Odintsovo Campus of MGIMO University**, which is located in one of the "Greenest" and most prestigious districts of the Moscow Region, and only minutes away from the Russian Capital. The updated Summer Program **will incorporate two** formerly separate courses - **Russian Foreign Policy** and **Russian Energy Policy** - into one versatile, comprehensive program.

The **2020 Summer Program** will provide our students with the necessary knowledge to bridge the gap between Russian Foreign, Domestic and Energy Policy - giving them a deeper understanding of the **contemporary geopolitical situation in Europe and the world**, and providing insight into the **inner-workings of Russian policy making**. To facilitate this learning experience, our staff of acclaimed university professors, prominent politicians, experienced diplomats and renowned experts have developed a directed and cohesive program, which tackles all the most important aspects of Russian Foreign Policy, such as: **legislative issues and historical context, strategic challenges, national and energy security, and international energy cooperation in a world of trade wars and unilateral sanctions**. Students will attend daily lectures and seminars, take part in group projects and presentations, and attend guest-speaker events - all of which **will be conducted exclusively in English**. At the end of the program, students will receive a course transcript and an official certificate of completion from MGIMO, awarding them **5 ECTS credits** in Russian Foreign Policy, **4 ECTS credits** in Russian Energy Policy and **4 ECTS credits** in Russian Language Studies.

Our students will also attend **Russian Language classes** in groups, **based on their level of proficiency** - ranging from absolute beginners to advanced Russian speakers. On top of the academic experience, attending students will also take part in an **extensive, well-rounded extracurricular program**, which entails several trips to **the most famous landmarks, museums and general attractions in the Moscow Region**, and to some locations that are off the beaten path as well! Possible destinations include the Kremlin and Red Square, Zaryadye Park, Tretyakov Gallery, Patriot Park, Cathedral of Christ the Savior, WWII Victory Museum, State Duma, Moscow City and more.

The **tuition fee for the 2020 Summer Program is 2950 euros** - this includes application processing, visa support, course tuition, guest speaker lectures, at least five off-campus excursions (including transportation and tickets), on-campus events, the use of sports facilities, Wi-Fi, a certificate of completion (upon graduation) and a MGIMO souvenir. Accommodation can be found right on campus at MGIMO. Summer Program students are eligible for a special rate at **the MGIMO Hotel** for the duration of their stay. Also on campus, athletically inclined participants will make good use of MGIMO's **world-class sports facilities**, including several gyms and a full-sized pool. More detailed information, and the registration form can be found on the Summer Program website: SUMMERSCHOOLMGIMO.RU

Week of: **July 4**

Extracurricular activities can include, but are not limited to: RT (Russia Today), Red Square and Kremlin, Zaryadye, Tretyakov Gallery, Patriot Park Cathedral of Christ the Savior, WWII Victory Museum, Sparrow Hills Observation Deck State Duma, Garage Museum of Art, Lazutinskiy Park, Nighttime Moscow. The Extracurricular activity schedule is subject to change based on weather, ticket availability and group size. On average, students attend no less than eight activities per module.

Russian Foreign Policy classes cover a broad range of course material in various formats. Students will attend lectures, seminars and round tables with several professors and special guest speakers (including politicians and diplomats, representatives of "big business") who will cover such topics as "Russia's Position in World Politics: Foreign Strategy Challenges and Prospects", "Empirical Study of RFP", "RFP: Legal Perspective", "RFP: Domestic and Historical Context".
